ANNOUNCEMENT and CALL FOR PAPERS

The 14th International Workshop on Teamworking (IWOT) will be held at Heriot-Watt University, Edinburgh, Scotland, between the 2nd and 3rd September, 2010.

The workshop is a platform for international scholars and experts on team working to present and discuss their studies on organizational teams and team working. Research from a variety of perspectives, disciplinary backgrounds and geographical areas will be presented.

This year's central theme is 'The future of teams and teamwork'

WORKSHOP FOCUS AND THEMES

Work groups have become an omnipresent part of organizational life. Yet, during the past decade a number of factors have arisen that have challenged both the practice of teams and teamwork and the theorizing of teams and teamwork. These include globalization and the necessary development of virtual teams, as well as the current economic downturn and the destruction or depletion of many teams within organizations. Papers exploring any issues relating to groups and teamwork are welcome. However, we would like to devote special attention to topics like:

Economic Crisis and Teamwork

Virtual Teams

Multinational and International Teams

Bullying in Groups

Group Diversity and Inclusion

KEYNOTE SPEAKERS

Professor Bill Harley, University of Melbourne, Australia
